RESEARCH INTERESTS

I am a Ph.D. student in The Bradley Department of Electrical and Computer Engineering at Virginia Polytechnic Institute and State University, advised by Prof. Thomas Hou. My research focuses on NextG wireless communication,. Currently, I am working on MAC-layer scheduling algorithms for URLLC and other time-critical applications.

EDUCATION

Ph.D. in Computer Engineering, Virginia Polytechnic Institute and State University — *GPA: 3.90* Aug 2022 — Present
M.S. in Computer Engineering, Virginia Polytechnic Institute and State University — *GPA: 3.90* Aug 2022 — Dec 2024
Dual B.S. in Computer Science and Mathematics, The Pennsylvania State University — *GPA: 3.91* Aug 2018 — May 2022

PUBLICATIONS

Journal paper

- Zhao, J., **Zhou, B.**, Butler, J. P., Bock, R. G., Portelli, J. P., & Bilén, S. G. (2021). IoT-based sanitizer station network: A facilities management case study on monitoring hand sanitizer dispenser usage. *Smart Cities*, 4(3), 979-994.
- Liu, Q., Li, C., Shi, Y., **Zhou, B.**, Hou, Y. T., & Lou, W. (2024). Pistis: A Scheduler to Achieve Ultra Reliability for URLLC Traffic in 5G O-RAN. *IEEE Internet of Things Journal*.
- **Zhou, B.**, Shi, Y., Wu, Y., Acharya, S., DaSilva, L., Lou, W., & Hou, Y. T. (2026). Atalanta: A bandwidth-conserving URLLC scheduler for industrial automation. under revision for *IEEE Internet of Things Journal*.

Video Demo

- A Demo of Data Scheduling for Ultra-Reliable Low Latency Communications in O-RAN

HONORS AND AWARDS

Department Research Fellowship, Virginia Polytechnic Institute and State University 2022
First Place, CodePSU Beginner Level, Penn State Association for Computing Machinery 2019

WORK EXPERIENCES

Virginia Polytechnic Institute and State University Aug 2022 — Present
Graduate Research Assistant

OTHER EXPERIENCES

Math Guided Study Group Leader March 2020 — May 2022
The Pennsylvania State University

- Review the information students learned during the past week
- Communicate with professors and students to go through students' questions

Math Tutor Sept 2019 — May 2022
The Pennsylvania State University

- Weekly assist more than 15 students one-on-one in math classes up to and including Calculus II and below

SKILLS

Technical Expertise: Specialized in wireless communication and network research, hands-on experience with MIMO, OFDM implementation, real-time GPU algorithm design and implementation, and Reinforcement Learning algorithms using OpenAI Gym.

Programming: C, CUDA C, Python, C++, Matlab, Verilog, Java, SQL

Software: Adobe Photoshop, After Effects, Premiere

Languages: English, Mandarin, Cantonese
